

Hey 🙋

I'm JP Casabianca.

Hey, I'm JP. An experienced UI/UX Designer and Engineer working remotely in EST Timezone. I can build full prototypes in Figma/Framer designed from scratch. Also, I can code them in Vue3/React + Node/Python, so I really bring value to product teams. I love new challenges, gravel cycling and Golf! Most recently working with Claude Code and others to boost my productivity.
